

NEWTROX O2 ANALYZER

Nuytco's second generation oxygen analyzer is microprocessor-based to ensure consistent calibration. Developed specifically for use in Nuytco submersibles and in the Exosuit, it features:

- Push and hold digital calibration (5 seconds)
- Long operation on 9V alkaline battery (<600 hours)
- Audible 'beep' for on, off and calibration complete
- Low battery indicator
- Large backlit display
- Cell check on power-up
 - 'CELL BAD' displayed when cell is nearing end of life
- Field-replaceable O2 cell (City Technology Divecel 3)
- Rugged, water-resistant case, milled from aluminum and hard anodized
- Dimensions: 2.57 x 3.94 x 1.59 inches
